

# Hack Club

Hack Club is the place to  
**learn to code.**

- **Coding is a superpower.** Come to Hack Club to make apps, websites, games, and anything you can dream up.
- **This is for beginners.** If you're new to coding, Hack Club is for you! Join without (or with!) any experience.
- We meet **every Monday** after school in B216. At your first meeting, you'll **leave with your first website online.** Meet friends, be creative, and make something awesome.
